ABOUT FITZGERALD & PARTNERS BUSINESS CENTRE

In today's changing economy, business in Ireland has seen unprecedented change.

At **Fitzgerald & Partners Business Centre** we are committed to our clients and to their business prospects in a rapidly changing environment on a cost efficient basis.

Fitzgerald & Partners Business Centre was set up to provide financial management and accounting services to meet the various statutory and Revenue responsibilities that are required of all business owners. We have gained extensive experience in the Business Centre to cater for the requirements of our clients, as we deal with a variety of businesses, from small sole traders or partnerships to small and medium sized limited companies. This allows us to present you with valuable insights and recommendations that address the concerns of all business owners. Our team will work with you to deliver accounting expertise and financial information that may not be available in-house.

We deliver and provide valuable and detailed daily, weekly and monthly data, to help our clients achieve the results they want and let them concentrate on the parts of the business they are good at.

Our clients are the best ambassadors of our service.

BOOK KEEPING SERVICES -

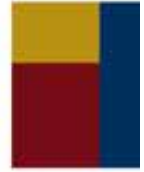

Our services are particularly geared towards Business and Start-up Businesses. We are a service provider which:

- Understands the client and their requirements.
- Has the technical knowledge and expertise to meet your requirements.
- Responds to new or changing requirements.
- Has the necessary systems in place to ensure the business is set up for the future.
- Constantly reviews and monitors the business to ensure high service levels are maintained.

Advantages of our Service include:

- Accounts are prepared on a regular basis.
- The business owner will have a clear picture at all times of creditors and debtors as profit/loss.
- Outsourcing the book keeping allows you to concentrate fully on running your business.
- Confidentiality - outsourcing keeps financial information more private than an in-house model.
- We act as your own book-keeper but without the fixed costs associated with employing additional staff.
- Can look at business restructuring which we do for a fee.

WHAT WE CAN DO FOR YOU

We provide a comprehensive service that deals with all of the financial management and accounting services relating to the various compliance and Revenue responsibilities that are required of all business owners.

We are delighted to offer you the following services:

Management Accounts

We can prepare or supervise the production of monthly, bimonthly or quarterly management accounts to ensure that our clients are fully aware of the company's trading results at a specific point in time. This will involve a review of the business Key Performance Indicators and key financial balances such as bank, cash, debtors, creditors, and a full review of all Revenue liabilities to ensure that they are up-to-date.

Payroll Services

We provide services to small and medium-sized businesses on a weekly, fortnightly, monthly or quarterly basis including wages calculations, P30 returns, issuing payslips, general advice as regards holiday benefits, sick pay benefits, benefits in kind, etc.

Review of Accounting Systems/Training

We can provide specialist training for our client's accounting staff and a detailed review of their accounts system to ensure that the management accounts for the company are accurate and issued on a timely basis.

Book-Keeping / Accounting Services

For new business start-ups many clients do not have the knowledge or time to deal with the overbearing administration. They can concentrate more on the promotion of the business, whatever it may be, if we deal with the administration and compliance deadlines.
