Outsourced Financial Controller Service:

Many businesses do not have a requirement for a full-time internal financial controller. Our outsourced financial controller service gives you access to highly qualified individuals who can provide you with the key monthly or quarterly reporting that you require, without the burden of having to take on an employee.

Perhaps your business in the early stages of its lifecycle where the cost of an internal financial controller is prohibitive. Perhaps your company is in a growth phase where your financial reporting requirement is growing. In both of these cases, key financial information is critical. We can do this for you.

We make the information meaningful - we will not simply present you with reports, we will work with you to ensure you receive the information that you need and will discuss the implications of same with you.

Our service includes:

- Implementation/review of accounting systems, procedures and controls
- Preparation of detailed financial projection
- Manage ongoing relationships with financial institutions
- Preparation and review of monthly or quarterly management accounts
- Attendance at board meetings
- Dealing with ad-hoc tax issues
