# DOING BUSINESS IN KINSALE

2019/2020

Kinsale is a very vibrant town with a very vibrant community and the purpose of the initiative was to pull together the various strands of the community to work together. This has been hugely successful and something that was raised in the Oireachtas, that could be rolled out in to every town in Ireland. The theme of the Doing Business In Kinsale 2018/2019 was in the area of education and entrepreneurship and gave certain people and businesses a way of showcasing what they do and the strategy really is to pick a various theme each year to focus on in the town as the theme of the publication.

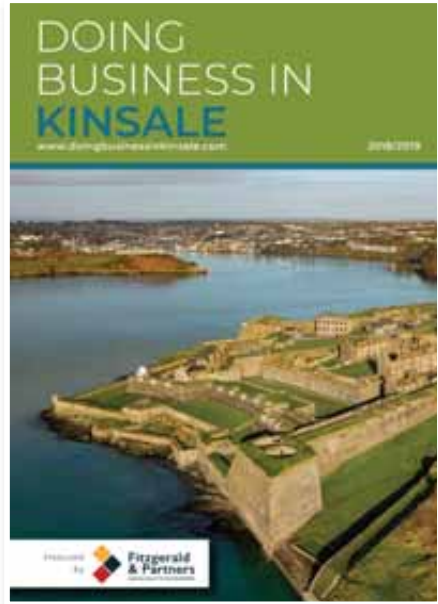

Because it is an e-book format, it is available to download anywhere in the word and we have received some really great outcomes and results from this initiative. We are now in the process of starting 2019/2020 publication and this will have a theme of sports and the arts.

### Global in Reach - Local in Touch

We just recently featured as a case study in a global report. We are honoured to be selected as one of only two Irish CPA firms to be featured in this global report thanks to our excellent team. The Global report recommends that small to medium sized practitioners and professional accountancy bodies must work together to adapt to change for an evolving future. A global research report 'The SMP of the Future in a Changing World' commissioned by the Edinburgh Group - a coalition of 16 accountancy bodies from across the world - examines the landscape ahead for the Accountancy Profession.

This report offers recommendations for small to medium sized practitioners (SMPs) and Professional Accountancy Organisations (PAOs) about how they can work better together and sustain great working relationships. It also includes a review of other academic research into SMPs. Report is available to download on our website.
