# Understanding and Managing Anxiety

**6 week course**  
**1 hour per week**  
**One-to-one**  
(Face to face or via Zoom)

Anxiety is a normal human experience which we all experience. However, for some, it can be debilitating and intrusive in normal daily living.

This CBT-based anxiety management programme addresses your own personal experience of anxiety and covers many aspects including:

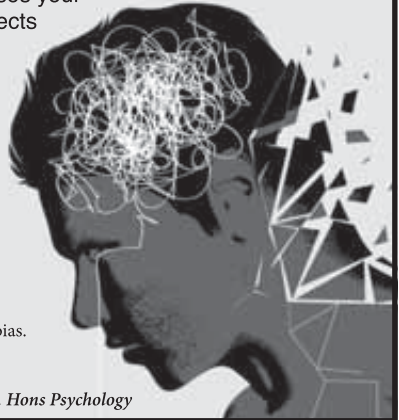

- **Psycho-education.**
- **How anxiety is maintained.**
- **Tools and techniques to address anxiety.**
- **How to manage and decrease anxiety levels.**

The programme is suitable for people experiencing mild to moderate anxiety.

Cognitive Behavioural Therapy (CBT) is a very specific form of therapy that is used to treat many types of mental health problems. Research shows that it is very effective for a wide range of disorders, from anxiety to depression to phobias.

### Miraculous Prayer

Dear Sacred Heart of Jesus, in the past I have asked for many favours. This time I ask you this very special one (mention favour). Take it, dear Heart of Jesus and place it within your own broken heart, where our Father sees it. Then in his merciful eyes it will become your favour, not mine, Amen.

*Say this prayer for 3 days, promise publication and the favour will be granted, no matter how impossible. Never known to fail. ROM*
