Solar Panel Cleaning

It is best to clean your solar panels as soon as they get dirty. By cleaning solar panels, you get a better performance out of your installation. This can translate to a return of up to 20%.

Why clean?

Solar panels work by capturing sunlight and transferring it to the solar cells. Stained solar panels capture less sunlight, producing less solar energy. Fallen leaves, bird droppings, pollen and dust are the main causes of solar panels becoming dirty. By cleaning your solar panels regularly, you get the maximum performance out of your solar panels.

Provent offer a safe and extensive cleaning service for solar panels wherever they are located.

Miraculous Prayer

Dear Sacred Heart of Jesus, in the past I have asked for many favours. This time I ask you this very special one (mention favour). Take it, dear Heart of Jesus and place it within your own broken heart, where our Father sees it. Then in his merciful eyes it will become your favour, not mine, Amen.

Say this prayer for 3 days, promise publication and the favour will be granted, no matter how impossible. Never known to fail. ROM
