## EXPATRIATES, WHAT CAN YOU EXPECT FROM US?

In modern day life moving country for work or just to build up on life experience means there is an ever increasing number of Expatriates around the world. Unfortunately legal, tax and investment rules have not been amended to account for this new mobile workforce. Leaving Expats in a virtual quagmire of complexity and confusion on how to make the most appropriate decisions for managing their financial affairs.

Our solution has been to develop a network of best in class Experts in a number of different countries covering all aspects such as tax, accounting, legal, financial planning and debt, to deliver the optimum solution tailored to your needs, often working with existing advisors in their home country.

We have successfully managed this for our private clients for the last 20 years and helping those moving to the area, buying or selling a property and managing the tax planning and practical items that need to be handled to add value to our expatriate clients on a totally private and confidential basis.
