2 YEARS OF ENDERMOLOGIE KINSALE

The Natural Beauty & Anti Aging Ritual

For over 30 years, LPG® has made its state-of-the-art devices available to beauty-conscious men and women who are demanding when it comes to their health. In complete harmony with this healthy way of life, it is advised that endermologie® treatments be taken on for the same reasons as you would a balanced diet or regular athletic activities. The stimuli sent to the cells act as a “helping hand” to maximize their potential. Making endermologie® a part of your lifestyle means choosing an intelligent, responsible, healthy lifestyle aimed at preserving your body and your face from the ravages of time.

For The Body

Acting simultaneously on the release of stubborn localized fat and on skin quality (firmness, cellulite aspect), the new Patent (Roller and motorized flap combined with sequential suction) allows the body technology to act directly on the adipocytes present in our hypodermis (slimming cells) and on the fibroblasts present in our dermis (rejuvenating cells). A 360° treatment that puts an end to the dilemma: slimming or firming?

For The Face

Acting like a real skin workout, the motorized flaps awaken the natural synthesis of essential rejuvenating substances. This cell stimulation then helps fibroblasts (rejuvenating cells) to boost their production of collagen (firmness), elastin (suppleness), and hyaluronic acid (volume and hydration), naturally present in our skin.
